

**Specifications:**

- Contact rating: 0.4VA max., 20V max. (AC or DC)
- Contact resistance: 20mOhm max. at 2-4V DC
- Insulation resistance: 1 000MOhm min.
- Dielectric strength: 1 500V RMS
- Operating temperature: -30°C to +75°C
- Mechanical life: 50 000 make-and-break cycles
- Cap installation force: 10 lbs, max. Permissible
- Switching function: on - mom
- Material: Case / bushing: glass filled nylon 6/6, flame retardant, heat stabilized (UL94V-0)  
 Plunger: glass filled nylon (UL94V-0)  
 Switch support: brass, tin plated  
 Switch support retainer: stainless steel  
 Contacts / terminals: copper alloy, gold plated over nickel
